we have it all

Range. The name itself says it all, doesn't it? We're not here to give you just one kind of tile — we're here to give you all of them. Ceramic, glazed porcelain, fullbody tiles, subway tiles, large-format slabs and many more— whatever you need, it's all right here.

Different sizes, different styles, different finishes — all crafted to match every space, every mood, and every dream. Whether it's a small upgrade or a bold transformation, Range Ceramics is your all-in-one destination. That's why we're not just another tile brand. We're the trusted and architects' preferred choice. Whether it's a stylish home or a mega project, people count on us to deliver style, quality, and variety — all at once. Because when you think tiles, think beyond limits. Think Range.

Some say tiles are just tiles. We disagree. At Range Ceramics, each surface is a shard of a larger tale — spun from earth, glazed in fire, whispered into being by craftsmen who understand silence and stone alike. Our range stretches across time and trend, from the minimal to the magnificent, the modest kitchen wall to the palatial lobby floor. What sets us apart is not just variety — it's belief. The belief that every tile is a mirror of human intent, a fragment of architecture's poetry, and a spell cast in clay. Our team works with passion, not just machines. And our commitment? To give you more than a product — a smooth experience, every single time.
