

300x600mm | **Matt** Finish

i ARCH Collection

Range. The name itself says it all, doesn't it? We're not here to give you just one kind of tile - we're here to give you all of them. Ceramic, glazed porcelain, fullbody tiles, subway tiles, large-format slabs and many more whatever you need, it's all right here.

Different sizes, different styles, different finishes all crafted to match every space, every mood, and every dream. Whether it's a small upgrade or a bold transformation, Range Ceramics is your all-in-one destination. That's why we're not just another tile brand. We're the trusted and architects' preferred choice. Whether it's a stylish home or a mega project, people count on us to deliver style, quality, and variety all at once. Because when you think tiles, think beyond limits. Think Range.

Some say tiles are just tiles. We disagree. At Range Ceramics, each surface is a shard of a larger tale spun from earth, glazed in fire, whispered into being by craftsmen who understand silence and stone alike. Our range stretches across time and trend, from the minimal to the magnificent, the modest kitchen wall to the palatial lobby floor. What sets us apart is not just variety - it's belief. The belief that every tile is a mirror of human intent, a fragment of architecture's poetry, and a spell cast in clay. Our team works with passion, not just machines. And our commitment? To give you more than a product-a smooth experience, every single time.

FORMIDABLE SURFACE FOR JOURNEY THROUGH TIME & TRENDS.

Easy to
Maintain

Fire
Resistant

UV
Resistant

Resistant to
Chemicals

Water Proof

● THE STRONGX SURFACE'S HARDNESS IS 8

Where in the things that could scratch and damage the surface, like silica (sand/dust in the shoes) and quartz, have a hardness of 7.

● EXCEPTIONAL DURABILITY

The Strongx surface's Moh's hardness exceeding 8 ensures exceptional resistance to scratches, impacts, and wear, extending the product's lifespan.

● SCRATCH RESISTANCE

The high hardness level translates to superior scratch resistance, maintaining the surface's pristine appearance over time.
