# POLO

FULLBODY TILES

## Sophistication Redefined

---

The category of homogeneous products, 'Full Body', is widely appreciated by Architects and Interior Designers due to its versatile uses and applications. POLO' is our most exciting series of homogeneous products yet.

The beauty of POLO' is the result of innovative and exclusive technology, 'Hybrid+'. This technology is first of its kind in India, which is equipped with the newest application system called 'Dry Glue Decorative Flakes (DGDF)'. With this extraordinary technology, we have created two 'POLO' designs using full body colored clay powder and clay flakes throughout the body without using any conventional liquid ink on the surface.

One warm and one cold collection consist of two sophisticated designs each. Colored and Glue flakes that are created with high precision enrich the aesthetics of the surface. For the convenience of choice, the two designs are available in single format of 60x60cm in surface finishes, polished and matt.

## polo Collection

A sneak peek into our world class collection of Polo tiles hand crafted for the clients who love uniqueness. Hues of cool colors that help you relaxed and refreshed. Dimensionally making smaller areas look largely spacious. Create the look worth cherishing. Let your dreams come true!
